

BT OFFER 2 YEAR PAY DEAL

BT yesterday tabled an offer of 4.2% on base pay, flowing through to pay related allowances, with effect from 1st April 2007 and also offered a further guarantee an increase to base pay in 2008 of no less than inflation (RPI).

The CWU negotiating team have rejected this offer on two counts.

The offer of 4.2% for 2007 still represents a cut in your pay in real terms and the offer of inflation for 2008 is also inadequate.

The pay negotiations are now at a critical stage and members should look for further reports next week.
